

The Feeding Center

Our feeding center officially opened May 31st! Since that day 65 little children have been hearing the word of God, receiving protein and vitamin enriched meals and learning new games and activities. As soon as the school day ends the children run to our feeding center with huge smiles on their faces! They can't wait to eat and see what fun game they are going to play that day.

At the feeding center we emphasize the importance of education. I've been blessed with the opportunity to teach English at the small public school in the village. There I have been showing the kids that learning is fun. Every morning that I climb up to the little school I hear voices yelling with excitement "Naomi is here! Naomi is here! English class!"

This month we were visited by two amazing women from Chicago. They spent 9 days in the mountains showering our kids with love. They cooked special meals for the center, brought gifts, taught the kids fun new games and gave classes in the public school. We had art class, science class and of course English class. The kids loved every second!

The Tolupan children are so eager to learn. Every week Sunday school is packed and there are children stepping up and leading others to Jesus. These children are truly seeking Jesus.

I will be in the States in August accepting donations for this hand made tribal jewelry. Each piece is one of a kind and made with beads harvested from the mountains. Your donation will go towards our mission in Honduras. Please let me know if you are interested. There are many more styles.
